10 AI Automations Every Bangladeshi Business Needs

Save time, capture more leads, and grow — without hiring more staff.

Across Bangladesh, smart businesses are quietly running on AI — replying to customers, chasing leads, and confirming payments while their owners sleep. [Here are the 10 with the biggest impact:](#)

1

WhatsApp AI Support Bot

Answer customer questions 24/7 in Bangla & English, instantly — no staff needed.

2

Instant Lead Follow-Up

Auto-reply to every Facebook & Instagram lead within seconds, before they go cold.

3

AI Lead Scoring

Let AI rank leads Hot / Warm / Cold so your team calls the best ones first.

4

Abandoned Cart Recovery

Win back lost sales with automatic WhatsApp & email reminders.

5

Order & Delivery Updates

Auto-send order confirmations and Steadfast / Pathao tracking to customers.

6

Payment Verification

Auto-confirm bKash / Nagad payments and send digital receipts in seconds.

7

Appointment Reminders

Cut no-shows with automatic WhatsApp / SMS booking reminders.

8

AI Content & Social Posting

Generate and schedule Facebook, Instagram & TikTok posts on autopilot.

9

CRM & Google Sheets Sync

Every lead and order logged automatically — zero manual data entry.

10

Review Collection

Auto-request Google & Facebook reviews after each sale to build trust.

AI-Native

Built around GPT-4o & Claude

You Own Everything

Self-hosted — no monthly SaaS lock-in

BD-First

Bengali + English, bKash / Nagad ready

Ready to put these on autopilot?

Book your FREE 30-minute consultation — we'll map the 2–3 automations with the biggest impact for your business.
